WELCOME TO FLEURY CATTLE COMPANY'S TWO YEAR OLD BLACK ANGUS BULL SALE.

I would like to take this opportunity to thank everyone who has shown an interest and invested in our program in the past. I am very excited about the group of bulls that we have on offer in 2017. This year's sale will showcase our entire breeding program, selling sons off our Canadian bred herd sires. Straight Canadian genetics continue to be our focus, allowing our customers to source predictable and consistent out-cross genetics that are rare to North America and the world. These superior genetics promote added length, natural muscle, and more frame score than breed average.

Our experience and involvement in the commercial cattle industry enables us to breed cattle to satisfy the needs of the feedlot operators, packers, and retailers. Today fat steers and heifers need enough frame score, natural muscle, fleshing ability and yield to satisfy the entire beef industry. We believe our bulls will provide our customers with the out-cross genetics to raise cattle that finish off at an ideal live and carcass weight. At the end of the day performance drives profits for everyone involved in the entire beef industry food chain.

Our bull sale will run in conjunction with the Saskatoon Livestock Sales Express Replacement

Heifer Sale. Over 600 top quality replacement heifers will be sold at 12:00 noon just before our sale. These heifers will represent all the industry's popular breeds, consigned by some of the finest commercial cattle breeders within our province. Be sure to come early to take in the SLS Express Replacement Heifer Sale and make a full afternoon of enjoying watching top quality replacement heifers and ranch-ready Black Angus Two Year Old bulls go through the SLS sale ring.

I know Fleury Cattle Company's set of two year old Black Angus bulls will certainly impress you. We invite you out to the ranch at any time to view the bulls and our cow herd. If there is anything I can do to help you with your purchases prior to or on sale day, please do not hesitate to contact me.

I look forward to seeing you at this year's edition of Fleury Cattle Company's Two Year Old Black Angus Bull Sale.

Sincerely,

*Matthew &
Cassie Fleury*

TERMS AND CONDITIONS

TERMS The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and, in cases of disputes, the auctioneer's decision will be final.

Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced on sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

HEALTH All animals in the sale have met all necessary health requirements.

GUARANTEE Each animal becomes the purchaser's risk

STANDING BEHIND WHAT WE SELL All bulls in the sale are semen tested, scrotal measured and vet inspected by a licensed veterinarian. All buyers will be provided with a semen evaluation certificate.

SIGHT UNSEEN PURCHASE PLAN If you are unable to attend the sale, you can have Matt handle your purchase. Nobody knows the bulls better than Matt and he can assist you in the selection of your bull. Please contact him by phone at 306 291 3960.

TRUCKING Free delivery to Saskatchewan, Manitoba and Alberta. For purchases going beyond, we will help accommodate delivery as economically as we can. *All bulls will be delivered to your farm or central points following the sale.*

immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

LIABILITIES All persons attend the sale at their own risk. The seller, facility owner, auctioneer and sale staff assume no liability, legal or otherwise, for any accidents that occur.

INSURANCE Agents will be in attendance to insure your purchases. We strongly recommend that insurance is purchased for full value.

ACCOMMODATIONS Best Western Plus Blairmore, 306 Shillington Crescent, Saskatoon. Phone 306 242 2299 and ask for the SLS rate.

THE RIGHT TO COLLECT SEMEN Fleury Cattle Company reserve the right to collect semen for within herd use on any of the bulls sold at their expense and the buyer's convenience.

BULL DEVELOPMENT

I believe bull development starts from the day they are born. At Fleury Cattle Company, calving starts April 20th; the calves are born on grass in their natural environment. Canadian winters get very cold and spring calving eliminates any stress that the cow and calf may experience by calving in the cold. Calving on grass is virtually stress free for mama and baby.

The calves are raised on the cow for six months with no creep feed. Calves are weaned in November and in the first year the yearlings are put on a TMR ration not exceeding 1% of body weight of grain per day, maintaining a 2.5 lb daily gain. Feeding the bulls out on a light ration promotes growth development; the bulls are not pushed. The first week in May they are then turned out on seeded forage pastures where these bulls grow frame and are developed in a natural environment. While on grass the bulls have a whole oat creep to enhance development. The bulls walk for their feed while grazing all summer. This grazing process develops their athletic ability, frames the bulls out, and develops their joints and muscle at an acceptable pace.

We bring these bulls home from grass in early fall and

they are put on a TMR ration designed for a 3-3.5 lbs daily gain. These bulls are developed with longevity in mind. On sale day these bulls will have reached 75% of their mature weight as a two year old. Running two year old bulls gives a better idea of what that bull is going to mature into. Two year old bulls are capable of covering more cows and require less development. We believe a two year old bull is past the calf stage, knows he is a breeding bull, and is ready to go out and breed cows.

As agriculture evolves we notice farms and ranches expanding. With this growth, operations need to be more efficient and economical to sustain a profitable operation. Due to ranchers expanding their cow herds, cattle are run in larger groups and the demand for two year old bulls has never been greater.

Fleury Cattle Company only sells two year old bulls and every bull goes through our Bull Sale. No yearlings or two year olds are sold off the ranch. We believe in developing our bulls for our customer. We are proud of the fact that all bulls sale day are ready to breed and cover more cows and also have a better chance of survival when turned in to multiple bull sire pastures.

FLEURY CATTLE COMPANY EPDS

A large group of Fleury Cattle Company's cowherd originated from Double AA Angus in Coleville, SK. This particular cowherd was known for breeding the famous "Annie K" line of cattle. The Double AA Angus cowherd was not involved in the Canadian Angus Performance program; therefore EPD's were not documented. Our current EPD data has not accumulated enough accuracy to become a true reflection of our breeding program. We continue to strive forward with these Canadian genetics, and our EPD data continues to build each year.

IDENTIFYING CANADIAN PEDIGREED ANGUS CATTLE

-  Animals with a standard three generation pedigree made up of all Canadian genetics will receive a designation of "Canadian" and a maple leaf will adorn the registration certificate.
-  Animals with a five generation pedigree made up of all Canadian genetics will receive a designation of "Straight Canadian" and a Canadian flag will adorn the registration certificate.

Saskatoon Livestock Sales Ltd. is located 10 km west of Saskatoon on Highway #14

Here is a straight Canadian-bred bull that has heavily influenced Fleury Cattle Company's program. Double AA 50'08 carries excellent bone, lots of mass and muscle, and has a picture perfect foot. RCE 50'08 is a bull that has been admired by many commercial bull buyers, breeders, and international guests. Double AA Bardolene 50'08's progeny are very stylish; he has proven to stamp his calves. Sons, daughters, and semen have been sold throughout Canada and the USA and have been a big influence on these programs. The Annie K cow family is highly regarded within the Angus industry, excelling in numerous purebred operations; 50'08's pedigree has some of the most influential ANNIE K cows that have ever existed. 50'08's dam, DOUBLE AA ANNIE K 280'96, is a well-recognized cow in the Angus business. This cow has produced many successful herd bulls for Double AA Angus and is the grandmother to the well-known Double AA Old Post bull. We are excited about the progeny off of 50'08 and feel they are the type of cattle that the industry demands.

Saskalta Bandolier 40W was selected out of the Saskalta Farms' program in the spring of 2010. This bull was selected due to his out-cross pedigree, big hip, and overall natural thickness. Saskalta Bandolier 40W was used on our Double AA Blackman 414'06 and Double AA Bardolene 50'08 daughters, as I felt these types of cattle complemented each other. 40W is an extremely easy fleshing bull with a picture perfect foot and great disposition. The progeny sired by Saskalta Bandolier 40W are very easy fleshing, stout, and carry lots of lower quarter and scrotal.

This strong herd bull was discovered the spring of 2007. Double AA Blackman 414'06 was our pick of the Dillabough's 2007 yearling bull pen. We bought half interest in this bull at the Rancher's Choice Bull Sale in Medicine Hat. This bull has sure proven himself, producing many females retained in our herd. The Blackman 414'06 sons have worked well for the commercial cattlemen, leaving calves that have extra growth and performance. This bull has an 80 lb birth weight, 708 lb weaning weight, and a 1411 lb yearling weight. The numbers are right, his daughters are producers, and his sons are simply good. He has great ultrasound data with AAA marbling, 13.35⁷² REA. Double AA Blackman 414'06 has had a huge influence on our breeding program, leaving numerous females with that added length of body and performance.

Fleury Bardolene 49X was a standout at a young age, with a lot of length of body, top, and a big foot. This bull was shown as a calf and was the 2010 Jackpot Champion Bull and a member of the champion pen at the Saskatoon Fall Fair pen show. Fleury Bardolene 49X's dam, Double AA Annie K 53'06, is one of the top producing females in our program and has a tremendous udder. We feel this bull has done a tremendous job in continuing on the Bardolene line in our breeding program. This will be the first year we have Bardolene 49X sons on offer. FAR 49X is line bred Bardolene on both sides of his pedigree, doubling up the strong line of Bardolene cattle. Fleury Bardolene 49X combines a great mother cow, Double AA Annie K 53'06, with the well known Double AA Bardolene 50'08; this creates some predictable genetics that we are excited to be offering.

Fleury Blackman 76Y offers lots of depth, width, and length of body. This powerful Double AA Blackman 414'06 son displays many of the traits of his sire. In 2012 FAR 76Y was retained to use in our breeding program and this will be the first year we have Blackman 76Y sons on offer. Fleury Blackman 76Y's dam, Double AA Annie K 261'06, was a powerful cow who raised a top calf every year. Double AA Annie K 261'06 has produced numerous females retained in our herd today. Double AA Blackman 414'06, FAR 76Y's sire, was a performance bull that has sired some of our top performance bulls sold to date.

In the spring of 2012 we toured the Sealin Creek cow herd from Monte Lake, BC. While touring their herd we were impressed by the udders, feet, and the breeding program behind the cow herd. When Sealin Creek Tom Boy 14Y was spotted we were immediately sold on the bull. Sealin Creek Eline 64N, PAK 14Y's dam, is a top producing cow with lots of length of body, power, and a gorgeous udder. Sealin Creek Tom Boy 14Y was the champion Angus bull at the Williams Lake Bull sale and caught the attention of many cattlemen. He left his mark on the Williams Lake Bull Sale by setting sale records, which generated a lot of interest. PAK 14Y comes from a program where structurally sound, good-footed cattle are emphasized; these cattle are expected to cover a lot of distance grazing the mountain pastures. This bull's progeny are deep bodied, easy fleshing, functional cattle full of style. If you are looking for a bull that will leave some top quality replacement females with longevity, we highly recommend a Tom Boy 14Y son.

Sealin Creek Northern 15A was selected out of the Sealin Creek Ranch from Monte Lake, BC. This bull was selected for his overall performance, length of body, and outcross Canadian pedigree. The Northern line of cattle have been noted to have a good foot, lots of length, and excel in performance. PAK 15A came off of the mountains as the heaviest weaning weight calf on the Sealin Creek Ranch in the summer of 2013. He offers a complete outcross pedigree to our breeding program and we have been very impressed with how he has crossed on our cow herd. What sets this bull apart from other high performance bulls is the fact he continues to make them smooth.

We are very excited about this future up-and-coming herd bull. Rancher's Choice Tommy 182B was our pick of the pen as a yearling at Saskalta Farms. Kim Robertson was so high on this yearling bull they decided to keep him as a herd bull. We were fortunate to have the opportunity to buy him as a three year old in the Saskalta Farms' Dispersal Sale. BTR 182B's dam, Saskalta Annie K 413U, was a top female at Saskalta and is a known daughter to the Double AA Bardolene 422'03. When we were touring the Saskalta cowherd, the RCE 422N cattle consistently stood out. Ranchers Choice Tommy 182B's sire, Sealin Creek Tom Boy 14Y, has done nothing but great things for us at Fleury Cattle Company.

95	821	1220

Fleury Tom Boy 10C is a bull that we raised and we are extremely excited to breed this bull into our program. FAR 10C has tremendous muscle expression, is wide based, big topped and is heavily quartered. FAR 10C's dam Fleury Annie K 74X is a powerful cow sired by Double AA Blackman 414'06. With the combination of the maternal strength in the Tom Boy line and the performance in the Blackman line we are expecting nothing but good things from this young herd sire.

FLEURY BLACKCLASS 74Y, DAM OF LOT 28
