Welcome to the 2020 edition of Fleury Cattle Company's Two-Year-Old Black Angus Bull Sale. I would like to thank all who have bought bulls from us in the past; your trust in our program is certainly appreciated.

We continue to breed the most current outcross straight Canadian Angus genetics available on the market today. Our Canadian genetics are predictable, consistent, unique, and rare to North America and the world. Our involvement in the commercial cattle industry has enabled us to understand what type of cattle are required in order to satisfy the needs of the cow-calf producer, feedlot, and packer. We are totally committed to supplying the right kind of beef bulls to the commercial cattleman.

Performance cattle continue to be the focus at Fleury Cattle Co. with the correct shape and style to calve. We believe our bulls are bred to sire steers and heifers with the right size frame score, promoting yield and marbling, and who finish off at a desirable profit weight for the feedlot operator.

The 2020 sale bulls will emphasize added frame score, muscle shape, depth of rib, length, and style. The Bardolene and Blackman lines of cattle continue to be at the forefront of our breeding program. However, as we are privileged to work with a number of repeat customers every year, we have brought in

outcross lines to continue to service their needs. Our bulls have been bred and developed for structural soundness, allowing them to perform in this diverse western Canadian environment. At the end of the day, it's quality and pounds that pay producers premiums and maximize profits. At Fleury Cattle Co. we strongly believe our bulls will breed success into your program.

Our bull sale will run in conjunction with the Saskatoon Livestock Sales Express Replacement Heifer Sale. Over 600 top quality replacement heifers will be sold at 12:00 noon just before our bull sale. Come early, take in the heifer sale, and make a full afternoon of enjoyment watching top quality replacement heifers and ranch ready Black Angus two-year-old bulls go through the SLS sale ring.

When sourcing breeding stock from Fleury Cattle Company you are investing in a true breeding program. We keep our finger on the pulse of the beef industry and breed cattle to fulfill industry demands. We invite you to come out to the ranch any time to view the bulls. If there is anything I can do to help you with your purchases prior to or on sale day, please do not hesitate to contact me. We look forward to seeing you at our sale.

Sincerely,

Matt Fleury

TERMS AND CONDITIONS

TERMS The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and, in cases of disputes, the auctioneer's decision will be final.

Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced on sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

HEALTH All animals in the sale have met all necessary health requirements.

GUARANTEE Each animal becomes the purchaser's risk

immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

LIABILITIES All persons attend the sale at their own risk. The seller, facility owner, auctioneer and sale staff assume no liability, legal or otherwise, for any accidents that occur.

INSURANCE Agents will be in attendance to insure your purchases. We strongly recommend that insurance is purchased for full value.

ACCOMMODATIONS Best Western Plus Blairmore, 306 Shillington Crescent, Saskatoon. Phone 306 242 2299 and ask for the SLS rate.

THE RIGHT TO COLLECT SEMEN Fleury Cattle Company reserve the right to collect semen for within herd use on any of the bulls sold at their expense and the buyer's convenience.

BULL DEVELOPMENT

I believe bull development starts from the day they are born. At Fleury Cattle Company, calving starts April 20th; the calves are born on grass in their natural environment. Canadian winters get very cold and spring calving eliminates any stress that the cow and calf may experience by calving in the cold. Calving on grass is virtually stress free for mama and baby.

The calves are raised on the cow for six months with no creep feed. Calves are weaned in November and in the first year the yearlings are put on a TMR ration not exceeding 1% of body weight of grain per day, maintaining a 2.5 lb daily gain. Feeding the bulls out on a light ration promotes growth development; the bulls are not pushed. The first week in May they are then turned out on seeded forage pastures where these bulls grow frame and are developed in a natural environment. While on grass the bulls have a whole oat creep to enhance development. The bulls walk for their feed while grazing all summer. This grazing process develops their athletic ability, frames the bulls out, and develops their joints and muscle at an acceptable pace.

We bring these bulls home from grass in early fall and

they are put on a TMR ration designed for a 3-3.5 lbs daily gain. These bulls are developed with longevity in mind. On sale day these bulls will have reached 75% of their mature weight as a two year old. Running two year old bulls gives a better idea of what that bull is going to mature into. Two year old bulls are capable of covering more cows and require less development. We believe a two year old bull is past the calf stage, knows he is a breeding bull, and is ready to go out and breed cows.

As agriculture evolves we notice farms and ranches expanding. With this growth, operations need to be more efficient and economical to sustain a profitable operation. Due to ranchers expanding their cow herds, cattle are run in larger groups and the demand for two year old bulls has never been greater.

Fleury Cattle Company only sells two year old bulls and every bull goes through our Bull Sale. No yearlings or two year olds are sold off the ranch. We believe in developing our bulls for our customer. We are proud of the fact that all bulls sale day are ready to breed and cover more cows and also have a better chance of survival when turned in to multiple bull sire pastures.

FLEURY CATTLE COMPANY EPDS

As a seed stock producer, Fleury Cattle Company is committed in providing accurate data. Straight Canadian EPD data has not accumulated enough accuracy to become a true reflection on these genetics. We continue to work with the Canadian Angus Association to build accurate EPDs on Canadian bred cattle.

IDENTIFYING CANADIAN PEDIGREED ANGUS CATTLE

- 🍁 Animals with a standard three generation pedigree made up of all Canadian genetics will receive a designation of "Canadian" and a maple leaf will adorn the registration certificate.
- 🍁🍁 Animals with a five generation pedigree made up of all Canadian genetics will receive a designation of "Straight Canadian" and a Canadian flag will adorn the registration certificate.

*Saskatoon Livestock Sales
Ltd. is located 10 km west of

Here is a straight Canadian-bred bull that has heavily influenced Fleury Cattle Company's program. Double AA 50'08 carries excellent bone, lots of mass and muscle, and has a picture perfect foot. RCE 50'08 is a bull that has been admired by many commercial bull buyers, breeders, and international guests. Double AA Bardolene 50'08's progeny are very stylish; he has proven to stamp his calves. Sons, daughters, and semen have been sold throughout Canada and the USA and have been a big influence on these programs. The Annie K cow family is highly regarded within the Angus industry, excelling in numerous purebred operations; 50'08's pedigree has some of the most influential ANNIE K cows that have ever existed. 50'08's dam, DOUBLE AA ANNIE K 280'96, is a well-recognized cow in the Angus business. This cow has produced many successful herd bulls for Double AA Angus and is the grandmother to the well-known Double AA Old Post bull. We are excited about the progeny off of 50'08 and feel they are the type of cattle that the industry demands.

Saskalta Bandolier 40W was selected out of the Saskalta Farms' program in the spring of 2010. This bull was selected due to his out-cross pedigree, big hip, and overall natural thickness. Saskalta Bandolier 40W was used on our Double AA Blackman 414'06 and Double AA Bardolene 50'08 daughters, as I felt these types of cattle complemented each other. 40W is an extremely easy fleshing bull with a picture perfect foot and great disposition. The progeny sired by Saskalta Bandolier 40W are very easy fleshing, stout, and carry lots of lower quarter and scrotal.

This strong herd bull was discovered the spring of 2007. Double AA Blackman 414'06 was our pick of the Dillabough's 2007 yearling bull pen. We bought half interest in this bull at the Rancher's Choice Bull Sale in Medicine Hat. This bull has sure proven himself, producing many females retained in our herd. The Blackman 414'06 sons have worked well for the commercial cattlemen, leaving calves that have extra growth and performance. This bull has an 80 lb birth weight, 708 lb weaning weight, and a 1411 lb yearling weight. The numbers are right, his daughters are producers, and his sons are simply good. He has great ultrasound data with AAA marbling, 13.35² REA. Double AA Blackman 414'06 has had a huge influence on our breeding program, leaving numerous females with that added length of body and performance.

Fleury Bardolene 49X was a standout at a young age, with a lot of length of body, top, and a big foot. This bull was shown as a calf and was the 2010 Jackpot Champion Bull and a member of the champion pen at the Saskatoon Fall Fair pen show. Fleury Bardolene 49X's dam, Double AA Annie K 53'06, is one of the top producing females in our program and has a tremendous udder. We feel this bull has done a tremendous job in continuing on the Bardolene line in our breeding program. This will be the first year we have Bardolene 49X sons on offer. FAR 49X is line bred Bardolene on both sides of his pedigree, doubling up the strong line of Bardolene cattle. Fleury Bardolene 49X combines a great mother cow, Double AA Annie K 53'06, with the well known Double AA Bardolene 50'08; this creates some predictable genetics that we are excited to be offering.

Ranchers Choice Bardolene 112C was purchased from Saskalta Farms in the spring of 2016. This herd sire was an absolute stand out as a yearling and we really appreciated his mother, Saskalta MS Morrison 167U. BTR 167U offered an outcross pedigree to our program and we felt a proven cow of her caliber had to be bred into our cowherd. BTR 112C throws that Bardolene consistency into his progeny and has bred extremely well for us.

Rancher's Choice Tommy 182B was our pick of the pen as a yearling at Saskalta Farms. Kim Robertson was so high on this yearling bull they decided to keep him as a herd bull. We were fortunate to have the opportunity to buy him as a three year old in the Saskalta Farms' Dispersal Sale. BTR 182B's dam, Saskalta Annie K 413U, was a top female at Saskalta and is a known daughter to the Double AA Bardolene 422'03. When we were touring the Saskalta cowherd, the RCE 422N cattle consistently stood out. Ranchers Choice Tommy 182B's sire, Sealin Creek Tom Boy 14Y, has done nothing but great things for us at Fleury Cattle Company.

Fleury Tom Boy 10C is a bull that we raised and we are extremely excited to breed this bull into our program. FAR 10C has tremendous muscle expression, is wide based, big topped and is heavily quartered. FAR 10C's dam Fleury Annie K 74X is a powerful cow sired by Double AA Blackman 414'06. With the combination of the maternal strength in the Tom Boy line and the performance in the Blackman line we are expecting nothing but good things from this young herd sire.

We have always admired the Winston line of cattle. This line is known for their overall smoothness, style, calving-ease, and exceptional females. We feel Fleury Winston 26F is the most complete Winston 249B son to surface to date. His dam, Double AA Blackbird 903D, is a long-bodied, smooth-made female that is one of our top producing young females in the herd. RCE 903D's pedigree pools the predictable Bardolene line of cattle with the outcross Blackbird line. We are thrilled to have a Winston son of this caliber enter our breeding program and feel that he will complement our cattle.

Fleury Bardolene 128F was selected to continue the Bardolene line in our cowherd. This Bardolene herd bull is an extremely thick, heavy muscled bull with added performance and depth. The Bardolene line continues to be one of our primary lines and we feel FAR 128F will continue to breed the predictability that the Bardolene cattle are known for. FAR 128F's dam, Fleury Annie K 20A, is a larger framed cow who is noticed for her thickness and volume. Fleury Bardolene 128F's granddam, Fleury Annie K 74X, has had a substantial influence on our breeding program. We anticipate a strong future for this young herd bull; combining the Annie Kand Bardolene lines gives us nothing but confidence in him.

We are very excited to introduce Fleury Blackman 42F. FAR 42F is noted for his overall style, muscle, and thickness. We really admire the heal and foot under this bull. Fleury Blackman 42F was an absolute standout as a calf and we have the utmost confidence this young herd bull possesses the qualities to move our Blackman line of cattle forward. His dam, FAR 167B, has proven herself to be a top producing cow in our breeding program. Fleury Blackcap 167B is admired for her femininity, balance, thickness, and style. The Blackcap line of cattle was the first cow family established at Fleury Cattle Company. This cow family is extremely maternal and are big producing cattle.

THE HISTORY OF THE ANNIE K COW LINE

In 1970, S&W Angus Ranch and Double AA Angus started a joint venture cattle operation at Coleville, Saskatchewan; this consisted of 225 registered Black Angus cows. This cowherd was composed of seventy from the S&W Ranch in Nebraska and one hundred and fifty from Manitoba, Saskatchewan, and Alberta. Twenty of these cows had yellow tags and were purchased from Boris Balanoff. When cattlemen viewed the Double AA cowherd, this particular group of cattle stood out. Visitors often asked, "Where did you get those yellow tagged cows?" and hence the nickname "The Yellow Tagged Cows" was born. Upon seeing them, the late Lloyd Pickard did a pedigree search and found this group all originated from one cow, Woodlawn Ida, who was an Annie of Knotary. This group of cows out-performed the rest of the herd; consequently, their daughters slowly outnumbered the other replacements and eventually the entire Double AA cowherd came almost exclusively from this line of cattle.

Bardolene of Old Post 5 was purchased in 1971 and crossed exceptionally well with the Annie K line. His progeny won many shows and bull test stations, both in Canada and the United States. The Annie K cow line also helped develop three bull lines: Bardolene, Blackman, and Bardolier. When Double AA dispersed, Fleury Cattle Company had the opportunity to purchase a select group of females; a number of these females were Annie K cows.

Today, Fleury Cattle Company continues to breed the Bardolene, Blackman, and Bardolier lines of cattle. The famous yellow-tagged Annie K cow continues to be the nucleus of our program. These genetics combine fifty years of breeding between Double AA Angus and Fleury Cattle Co. Both operations have the same focus on what a true breeding program consists of. When selecting bulls from Fleury Cattle Company, you are investing in a cowherd built over 50 years.

Matt Fleury

IN MEMORY OF BILL DILLABAUGH OF DOUBLE AA ANGUS

In September of 2019, the cattle industry lost a great cattleman. **Bill Dillabaugh**, of Double AA Angus, spent a lifetime breeding a world-renowned cowherd, which has contributed a tremendous amount to the breed of Angus

cattle. Bill was a true promoter of Angus cattle and was a man of vision. He was instrumental in organizing the first pre-sorted Angus calf sales in Moose Jaw, Maple Creek, and Medicine Hat. Bill saw the value of cattlemen working together to promote the Angus breed, and this was reflected in the development of the Rancher's Choice Program. Bill could see the value in partnerships; working with like-minded cattlemen with diverse talents enabled him to do business more effectively on a much larger scale. Rancher's Choice emphasized producing a large-volume, high-quality product for commercial cattle producers, while offering superior service to their customers.

Bill Dillabaugh was a true stockman who had an excellent eye for cattle. He bred Angus cattle for 49 years and in that time assembled a cow herd that advanced the Angus breed. Double AA genetics continue to move the Angus breed forward and are used in many seedstock operations. Bill's goal was to produce genetics that enabled all aspects of the cattle industry to prosper: cow calf, feedlot, packer, and the consumer. Bill worked for his customers, whether it was helping them select the right bull for their program or getting them started in the business. He truly understood the power of working with people.

Bill Dillabaugh was a leader, a teacher, and a mentor to many. I feel privileged that he played those roles in my life and am honored to have called him a friend. He will be missed.
