*We are pleased to welcome you to* Fleury Cattle Company's two-year-old Black Angus bull sale. We would like to thank everyone who has supported our program in the past; your trust in what we do is greatly appreciated. The friendships that we have developed with our customers over the years are what make this business so enjoyable.

As we enter 2023 we can't help but notice the pendulum swing in the cattle industry. Markets have strengthened and we truly feel it's an opportune time for the cattle producer. As production costs rise it has never been more critical to raise cattle excelling in natural growth. We at Fleury Cattle Company believe performance drives profit and continue to breed performance cattle with the most current outcross straight Canadian Angus genetics. Our goal is to allow ranchers to select volume while not sacrificing quality. When sourcing breeding stock from Fleury Cattle Company you are investing in a proven breeding program.

This year on offer will be 55 two-year-old Black Angus bulls that we feel is our most consistent set of bulls to date. The sires of these bulls are carefully selected from our program and backed by our prominent cow families. Our herd bull battery consists of sire groups such as Headliner, Bardolene, Tom Boy, Bandolier, Blackman, Northern, Winston, and Jumbo. These lines have contributed to the success of our program. We are proud to say over 85% of our herd bull battery are Fleury Cattle Company bred and raised. Our genetics have been tried and tested, eliminating any guess work and ensuring future success for our customers. Our purebred cowherd consists of 250 purebred females, bred to deliver productivity, consistency, and longevity. Many of the bulls on offer are  $\frac{1}{2}$  or  $\frac{3}{4}$  brothers, enforcing dependable genetics necessary to guarantee quality and predictability.

Our sale bulls will be available for viewing anytime prior to the sale. All sale bulls will have videos on our website prior to the sale. We encourage you to attend the sale in person and look forward to seeing you sale day. Be sure to stay following our sale for some fellowship and a steak barbeque. This will be a great opportunity to catch up and enjoy some hospitality at Fleury Cattle Company.

Sincerely,

*Matt Fleury*

[www.dlms.ca](http://www.dlms.ca)

## STANDING BEHIND WHAT WE SELL

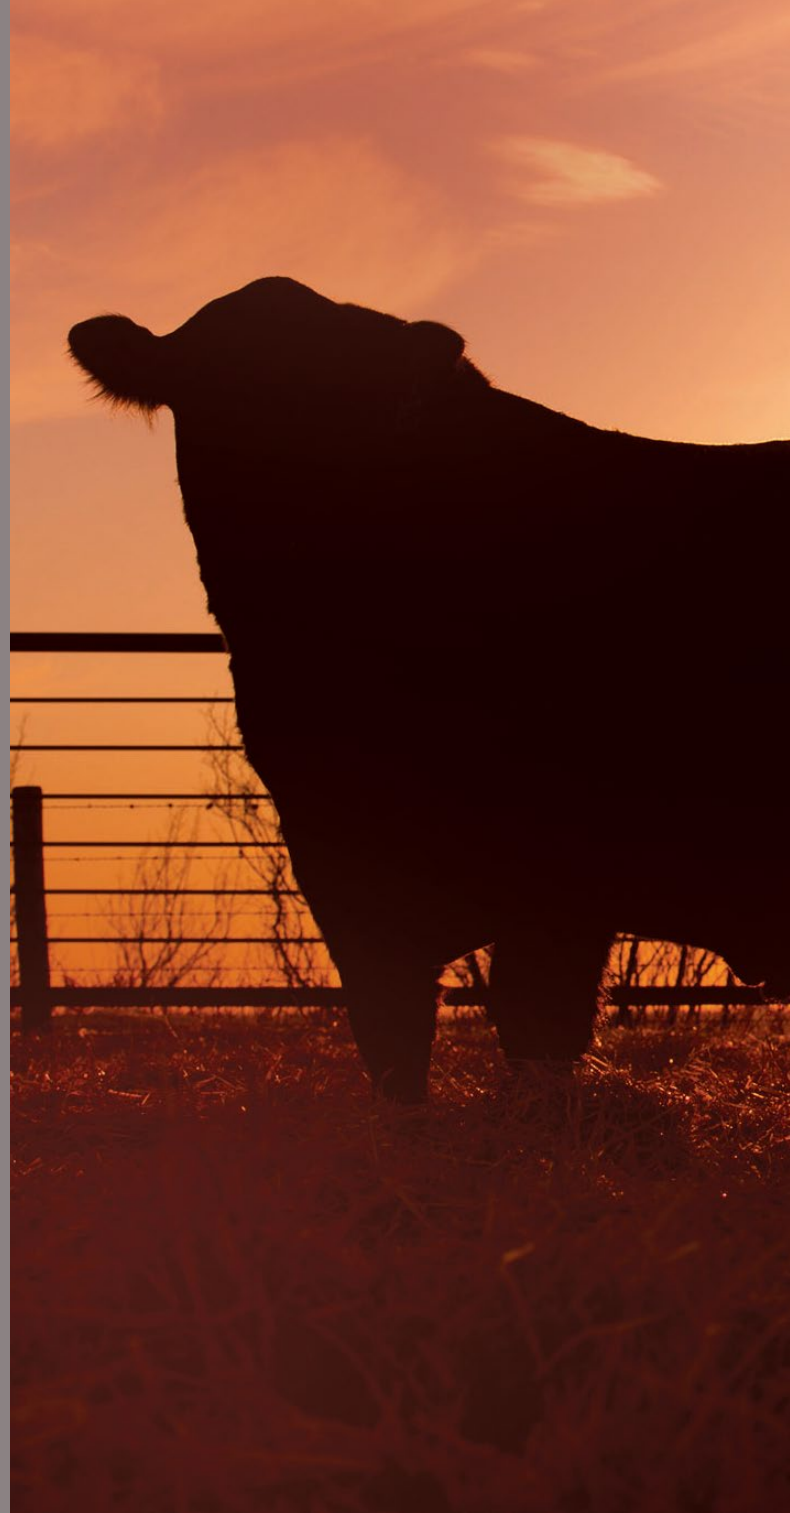

All bulls in the sale are semen tested, scrotal measured and vet inspected by a licensed veterinarian. All buyers will be provided with a semen evaluation certificate.

## SIGHT UNSEEN PURCHASE PLAN

If you are unable to attend the sale, you can have Matt handle your purchase. Nobody knows the bulls better than Matt and he can assist you in the selection of your bull. Please contact him by phone at 306-291-3960.

## TRUCKING

Free delivery to Saskatchewan, Manitoba and Alberta. For purchases going beyond, we will help accommodate delivery as economically as we can. All bulls will be delivered to your farm or central points following the sale.

## TERMS AND CONDITIONS

**TERMS** The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and, in cases of disputes, the auctioneer's decision will be final.

Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced on sale day. All monies are in Canadian funds.

**CERTIFICATE OF REGISTRATION** Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

**HEALTH** All animals in the sale have met all necessary health requirements.

**GUARANTEE** Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

**LIABILITIES** All persons attend the sale at their own risk. The seller, facility owner, auctioneer and sale staff assume no liability, legal or otherwise, for any accidents that occur.

**INSURANCE** Agents will be in attendance to insure your purchases. We strongly recommend that insurance is purchased for full value.

**THE RIGHT TO COLLECT SEMEN** Fleury Cattle Company reserve the right to collect semen for within herd use on any of the bulls sold at their expense and the buyer's convenience.

*An essential part  
of our team.*

## ■ BULL DEVELOPMENT

I believe bull development starts from the day they are born. At Fleury Cattle Company, calving starts April 20th; the calves are born on grass in their natural environment. Canadian winters get very cold and spring calving eliminates any stress that the cow and calf may experience by calving in the cold. Calving on grass is virtually stress free for mama and baby.

The calves are raised on the cow for six months with no creep feed. Calves are weaned in November and in the first year the yearlings are put on a TMR ration not exceeding 1% of body weight of grain per day, maintaining a 2.5 lb daily gain. Feeding the bulls out on a light ration promotes growth development; the bulls are not pushed. The first week in May they are then turned out on seeded forage pastures where these bulls grow frame and are developed in a natural environment. The bulls walk for their feed while grazing all summer. This grazing process develops their athletic ability, frames the bulls out, and develops their joints and muscle at an acceptable pace.

We bring these bulls home from grass in early fall and they are put on a TMR ration designed for a 3-3.5 lbs daily gain. These bulls are developed with longevity in mind. On sale day these bulls will have reached 75% of their mature weight as a two-year-old. Running two-year-old bulls gives a better idea of what that bull is going to mature into. Two-year-old bulls are capable of covering more cows and require less development. We believe a two-year-old bull is past the calf stage, knows he is a breeding bull, and is ready to go out and breed cows.

As agriculture evolves we notice farms and ranches expanding. With this growth, operations need to be more efficient and economical to sustain a profitable operation. Due to ranchers expanding their cow herds, cattle are run in larger groups and the demand for two-year-old bulls has never been greater.

Fleury Cattle Company only sells two-year-old bulls and every bull goes through our bull sale. No yearling or two-year-old bulls are sold off the ranch. We believe in developing our bulls for our customer. We are proud of the fact that all bulls sale day are ready to breed and cover more cows and also have a better chance of survival when turned out into multiple breeding fields.

## ■ FLEURY CATTLE COMPANY EPDS

As a seed stock producer, Fleury Cattle Company is committed in providing accurate data. Straight Canadian EPD data has not accumulated enough accuracy to become a true reflection on these genetics. We continue to work with the Canadian Angus Association to build accurate EPDS on Canadian bred cattle.

The Bandolier line of cattle were brought into our program 18 years ago when we leased the bull Johnston Bandolier 170F from Isaac Schellenberg. This line continues to excel in length, performance, and overall depth of body. The daughters are easy fleshing, functional cattle with longevity. We are pleased to have Fleury Bandolier 61D back in our bull battery to continue this proven line of cattle. This herd bull was the high-selling, leadoff bull in our 2018 bull sale selling to Bronyx Angus. FAR 61D is a long bodied, big footed, stylish herd bull that will play a significant role in our breeding program in the future. FAR 61D's pedigree combines the Bardolene, Blackman, Bardolier, and Bandolier lines of cattle. These four lines have played a crucial role in building our cowherd to what it is today. His dam, Double AA Annie K 224'05, was a deep bodied, powerful cow and was extremely good-footed, offering the predictability of the Annie K cow.

Glen Islay Headliner 12E continues to breed well for our breeding program. This will be the second year that we have offered sons off of JPC 12E and we couldn't be happier with this sire group. Headliner is deep and heavy muscled with a lot of depth and a great disposition. JPC 12E offers our customers a complete outcross pedigree on the top-side allowing us to line breed the maternal side back into our program. JPC 12E's dam, Double AA Annie K 203'06, is a prolific cow within the Angus breed, proving herself as top producer raising many herd bulls and replacement females throughout Canada.

We have always admired the Winston line of cattle. This line is known for their overall smoothness, style, calving ease, and exceptional females. We feel Fleury Winston 26F is the most complete Winston 249B son to surface to date. His dam, Double AA Blackbird 903D, is a long-bodied, smooth-made female that is one of our top producing young females in the herd. RCE 903D's pedigree pools the predictable Bardolene line of cattle with the outcross Blackbird line. We are thrilled with how Fleury Winston 26F has bred and feel that he has complimented our cattle, combining maternal with calving ease.

We are very excited to offer our first group of sons sired by Fleury Blackman 42F. FAR 42F is noted for his overall style, muscle, and thickness. We admire the heel and foot under this bull. Fleury Blackman 42F was an absolute standout as a calf and we have the utmost confidence this young herd bull possesses the qualities to move our Blackman line of cattle forward. His dam, FAR 167B, has proven herself to be a top producing cow in our breeding program. Fleury Blackcap 167B is admired for her femininity, balance, thickness, and style. The Blackcap line of cattle was the first cow family established at Fleury Cattle Company. This cow family is extremely maternal and are big producing cattle.

This Bardolene herd bull is an exceptionally thick, heavy muscled bull with added performance and depth. The Bardolene line continues to be one of our primary lines and we feel FAR 128F has bred true to this line of cattle. FAR 128F's dam, Fleury Annie K 20A, was a larger framed cow who was noticed for her thickness and volume. Fleury Bardolene 128F's granddam, Fleury Annie K 74X, has been an influential cow in our breeding program as we admired her frame and depth of body. FAR 128F offers predictability; combining the Annie K and Bardolene lines gives us nothing but confidence in him.

We have always appreciated the Northern line of cattle for their overall smoothness, length of body, and style. The Northern cattle are very maternal, offering tremendous udders and longevity. After watching the Northern daughters mature we thought it was appropriate to inject this line back into our breeding program. Fleury Northern 12D was sold in our 2018 bull sale to Don and Jeff Gingrich of Simpson, SK. Don and Jeff have been great customers over the years and we are fortunate that they allowed us to bring Fleury Northern 12D back into our program. FAR 12D's dam, Fleury Elena 34Y, was a moderate, deep bodied female with an exceptional udder. Not only is this female right in type but she is backed by two very influential bulls: Double AA Bardolene 50'08 and Johnston Bandolier 170F. The Elena cow family has been a foundation cow family for us for many years. In 2022 Fleury Northern 12D was exposed to a select group of Bardolene daughters. We are excited for the future of these genetics in our program.
